-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Response to Amendment***

1. Claims 1-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dufay et al.

***Response to Arguments***

Applicant argues that the prior art, Dufay et al, do not teach or suggest the claimed invention because it does not provide any motivation to pick or choose the essential ingredients as claimed.

The examiner contends and respectfully disagrees because applicant's invention is drawn to a broad list of surfactants and waxes, which can encompass a number of possibilities (see claim 1). Dufay et al merely list well-known surfactants and waxes that may be employed, wherein many of them encompass the claimed invention.

With respect to picking and choosing, it is established that the office is presenting a case of prima facie obviousness wherein it is admitted that Dufay et al do not teach with sufficient specificity each of the claimed components in an example that would establish a statutory bar. Therefore, the skilled artisan would have been motivated to pick a wax, anionic and nonionic surfactant to encompass the claimed invention, absent a showing to the contrary.

A reference may be relied upon for all that it would have reasonably suggested to one having ordinary skill the art, including nonpreferred embodiments. *Merck & Co. v. Biocraft Laboratories*, 874 F.2d 804, 10 USPQ2d 1843 (Fed. Cir.), cert. denied, 493 U.S. 975 (1989).

Art Unit: 1751

With further respect to applicant's unexpected results, mere statements of surprising results are not sufficient to overcome a prima facie case of obviousness. Applicant is suggested to provide data in the form of 1.132 Declaration or Affidavit to support his position.

***Conclusion***

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
